Comments: Part C #2A: SRMC was selected to participate in the C-PORT study in 2006 and therefore is reporting the provision of therapeutic cardiac catheterizations based upon C-PORT study guidelines. Part C #3B: Non-Cardiac Catheterization in Cardiac Catheterization Facilities:

Other procedures include event recorder implant, NIPS Study, peripheral atherectomy, and tilt table tests. Part D #1: Average Total Charge and Average Actual Reimbursement: Data was pulled using each DRG and its corresponding MS-DRG. For example, charges and reimbursements related to DRG 110 also included MS-DRG 237. Part D #4: Total Uncompensated Charges: The total uncompensated charges represent only the portion of the patients' total bill that was actually written-off to charity or indigent, regardless of payor. This amount does not take into account other adjustments or write-offs in addition to charity or indigent write-offs that actually decreased the expected revenue of the patient's account which does not allow for reconciliation between #4 and #6 for indigent/charity patients. Part D #6: Indigent/Charity Account: The total amount of charges represents the aggregate amount of all services or procedures billed (gross revenue) for self-pay patients that received any indigent or charity care adjustment or write-off. The actual reimbursement represents all of the payments received to date for patients who received any percent of charity or indigent adjustment or write-off. Part E#2: SRMC received "Accreditation with Full Standards Compliance" with the JCAHO on August 19, 2006.
