Comments: C.1.B.: Phoebe did not track cardiac catheterization procedures by room during 2010. Accordingly, Phoebe has divided the total number of procedures among the 3 cardiac cath labs. C.1.B.: Three cath labs are dedicated to cardiac catheterization and other cardiac procedures, but not cardiac catheterizations exclusively. C.2.A. and C.2.B.: Patients receiving both a therapeutic cath and a diagnostic cath are represented in both categories. C.4. and C.5.: Patient counts include EP patients. D.1.: Consistent with the instructions, Phoebe is reporting charges only for cases falling within the MS DRGs that included cath lab services. A significant percentage of cases falling within several of the MS DRGs listed on the survey did not include cath lab services. D.1.: Average inpatient charge for all non-Medicare outliers in those MS DRGs that received services in the cath lab. Average reimbursement for same universe of cases except those in self pay category or whose bills were written off in total. D.1.: Average charges and average reimbursement are for entire hospital stay. D.2.: Charge data reported here does not include outliers. D.4.: Indigent/charity care procedures not billed or written off reflect the indigent/charity qualified part of the bill. Medicare, Medicaid and Third Party payors may have been filed for non-indigent/charity charges. E.4.: Phoebe does not track this data.
