Comments: Part C 2A: SRMC was selected to participate in the C-PORT study in 2006 and therefore was reporting the provision of therapeutic cardiac catheterizations based upon C-PORT study guidelines. After the C-PORT study concluded, SRMC applied for and received the appropriate approvals from the state of Georgia to continue providing therapeutic cardiac catheterizations. Part C 3A: Peripheral Angiogram procedures for the report year were as follows: bilateral extremity runoff, abdominal aortogram with runoff, bilateral renal angiography, iliac artery angiography, and subclavian artery angiography. Part D 4: Total uncompensated charges represent only the portion of the patient's total bill that was actually written off to charity or indigent care per our Indigent & Charity care policy. Part D 6: Total charges for Indigent & Charity care represents to total gross charges related to patients receiving services per survey definitions. The actual reimbursement represents actual payments received for patients that were classified as Indigent & Charity and had a portion of their bill adjusted off to Indigent & Charity care per the Indigent & Charity care policy.
