Comments: C.1.B.: Phoebe did not track cardiac catheterization procedures by room during 2011. Accordingly, Phoebe has divided the total number of procedures among the 3 cardiac cath labs. C.1.B.: Three cath labs are dedicated to cardiac catheterization and other cardiac procedures, but not cardiac catheterizations exclusively. C.2.A. and C.2.B.: Patients receiving both a therapeutic cath and a diagnostic cath are represented in both categories. C.4. and C.5.: Patient counts include EP patients. D.1.: Consistent with the instructions, Phoebe is reporting charges only for cases falling within several MS-DRGs that included cath lab services. A significant percentage of cases falling within several of the MS-DRGs listed on the survey did not include cath lab services. D.1.: Average inpatient charge for all non-Medicare outliers in those MS-DRGs that received services in the cath lab. Average reimbursement for same universe of cases except those in self pay category or whose bills were written off in total. D.1.: Average charges and average reimbursement are for entire hospital stay. D.2.: Charge data reported here does not include outliers. D.4. Indigent/charity care procedures not billed or written off reflect the indigent/charity qualified part of the bill. E.4.: Phoebe does not track this data.
