Comments: C.1.B: Phoebe did not track cardiac catheterization procedures by room during 2013. Accordingly, Phoebe has divided the total number of procedures among the 3 cardiac cath labs. C.1.B: Three cath labs are dedicated to cardiac catheterization and other cardiac procedures, but not cardiac catheterizations exclusively. C.2.A. and C.2.B: Patients receiving both a therapeutic cath and a diagnostic cath are represented in both categories. C.4 and C.5: Patient counts include EP patients. D.1: Consistent with the instructions, Phoebe is reporting charges only for cases falling within several MS-DRGs that included cath lab services. A significant percentage of cases falling within several of the MS-DRGs listed on the survey did not include cath lab services; the data from those non-cath lab cases are not reported here. D.1: Charges and reimbursement reported here are for services provided during the entire stay; Phoebe is not able to report charges and reimbursement for cath lab related services for MS-DRG inpatients. D.1: Average inpatient charge for all non-Medicare outliers in those MS-DRGs that received services in the cath lab. Average reimbursement for same universe of cases except those in self pay category or whose bills were written off in total. D.1: Average charges and average reimbursement are for entire hospital stay. D.2: Charge data reported here does not include outliers. D.4: Indigent/charity care procedures not billed or written off reflect the indigent/charity qualified part of the bill. E.2: The hospital is accredited by DNV. E.4: Phoebe does not track this data.
