Comments: Part D Section 2 Dilation of Coronary Artery, One Artery: FMC's data also includes services following within ICD-10 codes 027034Z, 027044Z, and 02704DZ. These three (3) codes account for the majority of the single vessel PTCA procedures in FMC's cath labs. If FMC removed the volumes associated with these three (3) codes, FMC's data for Part D Section 2 Dilation of Coronary Artery would reflect only 31 procedures. Pursuant to the Department's instructions, data for Part D, Section 2, is being provided separately to the Department via email.
