Comments and Suggestions:

Part E.4: The hospital does not track ED visits by ED bed. Accordingly, ED visits are allocated proportionately among the ED beds for survey reporting purposes. Obviously, the hospital cannot verify that such an allocation accurately reflects the actual number of ED visits per ED bed category.

Part F.1.b Starting on this survey, Hospice counts show Hospice patients in a hospital bed, and do not show activities of the Wellstar owned hospice called Tranquility.

Part G.3: Physicians who do not identify a race are listed as multi-racial.

Parts G.3 and G.4: The differences in the total number of physicians between these 2 categories is attributable to the physicians accounted for in G.4 who do not have admitting privileges; consistent with the survey instructions, those non-admitting physicians are not counted in G.3.

Part G.4: The reported number of physician providers enrolled in Medicaid/PeachCare and/or Public Employee Health Benefits Plan was derived from hospital billing records. The hospital expects that there are additional physicians on its medical staff who are enrolled in these programs but whom are not reflected in the survey count.

Georgia Minority Health Advisory Council Addendum

Because of Georgia’s racial and ethnic diversity, and a dramatic increase in segments of the population with Limited English Proficiency, the Georgia Minority Health Advisory Council is working with the Department of Community Health to assess our health systems’ ability to provide Culturally and Linguistically Appropriate Services (CLAS) to all segments of our population. We appreciate your willingness to provide information on the following questions:

1. Do you have paid medical interpreters on staff? (Check the box, if yes.)

If you checked yes, how many? 1 (FTE's)

What languages do they interpret?

Spanish

2. When a paid medical interpreter is not available for a limited-English proficiency patient, what alternative mechanisms do you use to assure the provision of Linguistically Appropriate Services? (Check all that apply)

Bilingual Hospital Staff Member

Bilingual Member of Patient's Family

Community Volunteer Interpreter

Telephone Interpreter Service

Refer Patient to Outside Agency

Other (please describe):

When a patient has a pre-planned appointment and WellStar does not have a trained in-house medical interpreter to assist with communication, WellStar arranges for a medical interpreter through our contractual relationship with an outside agency.

3. Please complete the following grid to show the proportion of patients you serve who prefer speaking various languages (name the 3 most common non-English languages spoken.)

Top 3 most common non-English languages spoken by your patients	Percent of patients for whom this is their preferred language	# of physicians on staff who speak this language	# of nurses on staff who speak this language	# of other employed staff who speak this language
Spanish	4.33	88	0	0
Vietnamese	0.09	3	0	0
French	0.06	4	0	0

4. What **training** have you provided to your staff to assure cultural competency and the provision of **Culturally and Linguistically Appropriate Services (CLAS)** to your patients?

Since CY2009, WellStar Cobb Hospital has forty-nine (49) dual handset telephones in strategic patient care units throughout the hospital. These phones allow enhanced communication with LEP patients. All departments that requested these phones received training to use these resources and how to document the use of these tools in patient charts. Additionally, an interpretation services toolkit which outlines WellStar's guidelines regarding interpretation services, provides system wide interpretation services updates, provides information on CLAS Standards and which provides information on how to quickly access interpretation services was provided to each patient care unit. In addition to interpretation services, during fall 2010, WellStar launched a Cultural Diplomat Program. This program consists of WellStar team members of culturally and ethnically diverse backgrounds who offer insights, knowledge and cultural awareness to providers when they are confronted with cultural issues that may be impacting understanding during a patient's hospitalization or other patient care encounters. Review of the CLAS standards is an intricate part of the orientation for all participants in this program. As an additional resource, WellStar produces a monthly Cultural Connections Newsletter. This publication features health related information about a different culture each month. It also highlights system wide cultural competency initiatives. Further, all WellStar medical interpreters are required to conduct a literature review and to lead a facilitated discussion on the article during monthly staff meetings.

Annually all WellStar team members participate in Goals for Achieving Mandatory Education and Safety (GAMES). Included in this annual educational curriculum is information on how to access and utilize interpretation services, including delineation of best practice strategies to ensure effective interpretation and a list of tips on how to effectively work with medical interpreters. The CLAS Standards and WellStar's online cultural competency and diversity tools are part of this mandatory education. Team members are not only required to read this information but are tested on the content of the curriculum.

5. What is the most urgent tool or resource you need in order to increase your ability to provide **Culturally and Linguistically Appropriate Services (CLAS)** to your patients?

WellStar would encourage the state to consider reimbursement for interpreting services when care is provided to Limited English Proficiency patients.

6. In what languages are the signs written that direct patients within your facility?

1. English

2. Spanish

3. Braille

4.

7. If an uninsured patient visits your emergency department, is there a community health center, federally-qualified health center, free clinic, or other reduced-fee safety net clinic nearby to which you could refer that patient in order to provide him or her an affordable primary care medical home regardless of ability to pay? (Check the box, if yes)

If you checked yes, what is the name and location of that health care center or clinic?

Community health center: Good Samaritan Clinic, 1605 Roberta Drive Marietta, GA 30008

Wellstar Cobb Community Clinic, 1790 Mulkey Rd, Suite 10, Austell Ga 30106

Federally qualified health center: Cobb Co Dept Health Clinic, 1650 County Services Rd Marietta 30008

Free clinic: MUST Ministries/Cobb Health Partners-Cobb Parkway;

Luke's Place

Other reduced fee safety net clinic: Community Health Center Veterans Memorial Hwy
