Comments and Suggestions:

Part G.3: Physicians who do not identify a race are listed as multi-racial.

Parts G.3 and G.4: The differences in the total number of physicians between these 2 categories are attributable to the physicians accounted for in G.4 who do not have admitting privileges; consistent with the survey instructions, those non-admitting physicians are not counted in G.3.

Part G.4: The reported number of physician providers enrolled in Medicaid/PeachCare and/or Public Employee Health Benefits Plan was derived from hospital billing records. The hospital expects that there are additional physicians on its medical staff who are enrolled in these programs but whom are not reflected in the survey count.

Part H : Physician Name and License Number

1. Physicians on Staff

Please report the full name and license number of each physician on staff. **(Due to the large number of entries, this section has been moved to a separate PDF file.)**

Georgia Minority Health Advisory Council Addendum

Because of Georgia's racial and ethnic diversity, and a dramatic increase in segments of the population with Limited English Proficiency, the Georgia Minority Health Advisory Council is working with the Department of Community Health to assess our health systems' ability to provide Culturally and Linguistically Appropriate Services (CLAS) to all segments of our population. We appreciate your willingness to provide information on the following questions:

1. Do you have paid medical interpreters on staff? (Check the box, if yes.)

If you checked yes, how many? 0 (FTE's)

What languages do they interpret?

2. When a paid medical interpreter is not available for a limited-English proficiency patient, what alternative mechanisms do you use to assure the provision of Linguistically Appropriate Services? (Check all that apply)

Bilingual Hospital Staff Member

Bilingual Member of Patient's Family

Community Volunteer Interpreter

Telephone Interpreter Service

Refer Patient to Outside Agency

Other (please describe):

When a patient has a pre-planned appointment at a WellStar facility and a trained in-house medical interpreter is not available to assist with communication, providers can schedule a medical interpreter to be present during the medical appointment. WellStar maintains a contractual relationship with three (3) agencies to supplement our in-house medical interpretation services capability.

3. Please complete the following grid to show the proportion of patients you serve who prefer speaking various languages (name the 3 most common non-English languages spoken.)

Top 3 most common non-English languages spoken by your patients	Percent of patients for whom this is their preferred language	# of physicians on staff who speak this language	# of nurses on staff who speak this language	# of other employed staff who speak this language
Spanish	1.49	24	0	0
Vietnamese	0.09	1	0	0
Portuguese	1.41	2	0	0

4. What **training** have you provided to your staff to assure cultural competency and the provision of **Culturally and Linguistically Appropriate Services (CLAS)** to your patients?

Over the last few years, WellStar has enhanced interpretation services at all of our facilities in order to ensure effective communication and to provide culturally competent care. In-person medical interpretation services for patients who speak Spanish is now available at our two largest hospitals, Kennestone Hospital on a 24-hour basis daily and at Cobb Hospital, 8 hours/daily however all facilities have access to telephonic interpretation services which are available, twenty-four (24) hours daily with access to over 150 languages.

Effective January 2012, Emergency Rooms were equipped with over 200 dual handset phones. Dual handset phones allow enhanced communication with patients with limited English proficiency (LEP). In addition to the emergency rooms, over 200 dual handset phones were already available in patient care units.

Departments were trained on the use of these resources and how to document the use of interpretation services in patients' medical records. Additionally, an interpretation services toolkit was distributed to all departments. Information about CLAS Standards and detailed instructions on how to quickly access interpretation services are included in the toolkit and have been provided during department staff meetings and trainings.

WellStar has also implemented programs to engage team members and train providers on how to provide culturally competent care. The Cultural Diplomat Program consists of WellStar team members of culturally and ethnically diverse backgrounds who offer insights, knowledge and cultural awareness to providers when they are confronted with cultural issues that may be impacting understanding during a patient's hospitalization or other patient care encounters. Review of the CLAS standards is an intricate part of this program. WellStar also has a monthly newsletter, Cultural Connections, which highlights a different culture dimension of diversity. In addition, WellStar offers additional online tools to support culturally competent care including the following:

- Culture Vision, a robust database that is geared to healthcare professionals. It provides cultural, religious and other information about several ethnic groups.
- DiversityToolkit , a resource designed for managers, leaders and front-line workers to help to successfully build and manage diverse workgroups.
- CareNotes provides inpatient/discharge information and drug-related information to patients. Information can be customized in multiple languages.
- Annual Diversity Forum – annual educational conference which focuses on diversity and cultural competency in health care. This conference is geared to all WellStar providers and system leaders.

A key component of the boarding process at WellStar is training of all nurses who have recently graduated from nursing school and are entering the workforce at WellStar.

5. What is the most urgent tool or resource you need in order to increase your ability to provide **Culturally and Linguistically Appropriate Services (CLAS) to your patients?**

At WellStar, we are pleased to be able to provide care that is culturally and linguistically appropriate for our patients.

6. In what languages are the signs written that direct patients within your facility?

1. English 2. Braille 3. Spanish (not all signs) 4.

7. If an uninsured patient visits your emergency department, is there a community health center, federally-qualified health center, free clinic, or other reduced-fee safety net clinic nearby to which you could refer that patient in order to provide him or her an affordable primary care medical home regardless of ability to pay? (Check the box, if yes)

If you checked yes, what is the name and location of that health care center or clinic?
