Georgia Minority Health Advisory Council Addendum

Because of Georgia's racial and ethnic diversity, and a dramatic increase in segments of the population with Limited English Proficiency, the Georgia Minority Health Advisory Council is working with the Department of Community Health to assess our health systems' ability to provide Culturally and Linguistically Appropriate Services (CLAS) to all segments of our population. We appreciate your willingness to provide information on the following questions:

1. Do you have paid medical interpreters on staff? (Check the box, if yes.) ☐

If you checked yes, how many? 0 (FTE's)

What languages do they interpret?

2. When a paid medical interpreter is not available for a limited-English proficiency patient, what alternative mechanisms do you use to assure the provision of Linguistically Appropriate Services? (Check all that apply)

Bilingual Hospital Staff Member ☐

Bilingual Member of Patient's Family ☐

4. What **training** have you provided to your staff to assure cultural competency and the provision of **Culturally and Linguistically Appropriate Services (CLAS)** to your patients?

We use a cultural tool that is taught to our employees and is also hung in the various departments

around the hospital as a quick reference for healthcare personnel in their dealings with patients from different cultures. This tool helps the personnel handle belief practices, nutritional preferences, communication awareness, patient care, and/or handling of death for different culture groups or languages.

5. What is the most urgent tool or resource you need in order to increase your ability to provide **Culturally and Linguistically Appropriate Services (CLAS) to your patients?**

We use a cultural tool that is taught to our employees and is also hung in the various departments around the hospital as a quick reference for healthcare personnel in their dealings with patients from different cultures. This tool helps the personnel handle belief practices, nutritional preferences, communication awareness, patient care, and/or handling of death for different culture groups or languages.
