Georgia Minority Health Advisory Council Addendum

Because of Georgia's racial and ethnic diversity, and a dramatic increase in segments of the population with Limited English Proficiency, the Georgia Minority Health Advisory Council is working with the Department of Community Health to assess our health systems' ability to provide Culturally and Linguistically Appropriate Services (CLAS) to all segments of our population. We appreciate your willingness to provide information on the following questions:

1. Do you have paid medical interpreters on staff? (Check the box, if yes.) ☒

If you checked yes, how many? 0.80000001192093 (FTE's)

What languages do they interpret?

Spanish

2. When a paid medical interpreter is not available for a limited-English proficiency patient, what alternative mechanisms do you use to assure the provision of Linguistically Appropriate Services? (Check all that apply)

Bilingual Hospital Staff Member ☐

Bilingual Member of Patient's Family ☐

Community Volunteer Interpreter ☐

Telephone Interpreter Service ☒

Refer Patient to Outside Agency ☐

Other (please describe): ☒

Telephone interpreter service - 200+ languages are available 24/7/365. Other - Video remote interpretation via iPads is currently available in 10 languages. Other "Contracted agency interpreters are available at all hours through four different agencies."

3. Please complete the following grid to show the proportion of patients you serve who prefer speaking various languages (name the 3 most common non-English languages spoken.)

Top 3 most common non-English languages spoken by your patients	Percent of patients for whom this is their preferred language	# of physicians on staff who speak this language	# of nurses on staff who speak this language	# of other employed staff who speak this language
Spanish	3.38%	0	0	0
Russian	0.02%	0	0	0
Kanjobal	0.01%	0	0	0

4. What **training** have you provided to your staff to assure cultural competency and the provision of **Culturally and Linguistically Appropriate Services (CLAS)** to your patients?

- New-hires are required to complete a computer-based learning course prior to attending orientation.
 - Orientation for all newly-hired employees includes a segment addressing cultural competency.
 - Orientation for patient care employees includes a 45-minute segment on this topic.
 - There is a department orientation template that can be used by unit leadership.
 - Annual organization-wide required computer-based learning course has a dedicated section for Interpretation Services.
 - Northside proactively rounds on patients in language as resources permit to educate patients on their rights. Any feedback received during these contacts is immediately provided to the designated unit leader. Northside provides bi-annual data to the organization regarding language preferences and utilization of interpretation services.
 - On-the-spot education often occurs within interpretation encounters – this is an appropriate use of a trained professional medical interpreter's cultural broker's role.
 - Northside offers to provide in-services to clinical and non-clinical staff on a quarterly basis. These in-services are realized by unit request.
-

5. What is the most urgent tool or resource you need in order to increase your ability to provide **Culturally and Linguistically Appropriate Services (CLAS) to your patients?**

A more developed program for qualifying bilingual employees to directly communicate with patients in language within their regular job functions.

6. In what languages are the signs written that direct patients within your facility?

1. English

2. Limited Spanish

3.

4.

7. If an uninsured patient visits your emergency department, is there a community health center, federally-qualified health center, free clinic, or other reduced-fee safety net clinic nearby to which you could refer that patient in order to provide him or her an affordable primary care medical home regardless of ability to pay? (Check the box, if yes) ☐

If you checked yes, what is the name and location of that health care center or clinic?

Title: CEO, Northside Hospital - Cherokee

Comments:

NOTES ABOUT THIS SURVEY:

Various Areas of the AHQ and Addenda: Race/Ethnicity of Patients: The determination of a patient's race is based on the discretion of the admissions clerk. If the admissions clerk is unsure of the patient's race, the clerk must choose "Multi-racial/Unknown". In addition, "Hispanic" or "Latino" are ethnic characteristics, meaning that Hispanic patients may be of any race. As such, the figures provided should be considered only a very rough approximation of true utilization by race at Northside Hospital - Cherokee.

Part D, Item 1: Utilization of Beds: Critical Care Admissions and Discharges: The figures provided represent direct admissions to and direct discharges from critical care beds only. Length of stay in critical care beds cannot be accurately calculated using direct admissions and discharges because these figures do not represent all patients who spent time in a critical care bed (e.g., patients transferred from other units), while inpatient days and discharge days do reflect all occupied bed days in the critical care unit.

Part D, Item 4: Government Payment Source: Medicare admissions and days include Medicare managed care, while Medicaid admissions and days include Medicaid managed care.

Part E, Item 1: Emergency Visits to the Hospital: Consistent with past surveys dating back to 2003, based on instructions from DCH staff, only outpatient visits to the ER are to be included in this figure. Total ER visits thus would equal the sum of Lines E.1.and E.2.

Part E, Item 7: Total Observation Visits: Observation patients seen in the Emergency Department are included as Outpatient Emergency Room visits and are not reflected in this total. Total Observation Visits includes all 23-hour patients (observation and extended recovery) served outside of the ED.

Part E, Item 8: ER Diversions: Northside does not track this information.

Part F, Item 1: Services & Facilities: "ESWL": Northside contracts with two different companies for this service. Each company provides a transportable unit to Northside Hospital - Cherokee one or more days per week. No more than one unit is on site at either location on any given day.

Part F, Item 1: Respiratory Therapy Treatments: Beginning with the 2009 survey, Northside began using UB codes to determine the number of respiratory therapy treatments.

Part F, Item 1: Ultrasound units and procedures: Per instructions from DCH staff, ultrasound procedures include only diagnostic ultrasounds and exclude prenatal ultrasounds.

Part F, Item 2: Medical Ventilators: The figure reported includes both adult and infant ventilators.

Part G, Item 1: Budgeted and vacant budgeted FTE figures are estimated.

Part G, Medical Staff Info.: Northside Hospital - Cherokee does not have figures on medical staff enrolled in Medicaid or PEHB.

Part H, Item 1: Northside has included only active and provisional medical staff on the list of physician names and license numbers, consistent with the medical staff data provided in Part G,Item 4.

Surgical Services Addendum, Part A, Item 1: Consistent with our prior surveys, the operating rooms reported here are sterile rooms only. Prior to 1999, Northside Hospital – Cherokee had reported 2 endoscopy rooms as part of its operating room complement. However, these rooms are not sterile,

have open drains, and do not meet the air handling requirements of a general operating room. As such, invasive surgical procedures requiring entry into a body cavity cannot be performed in these rooms.

Perinatal Addendum, Part A: As we have done on past surveys, we have reported the number of C-section rooms under "Number of Delivery Rooms".

Perinatal Addendum, Part C3: Northside does not assign CPT codes to inpatients. This average charge represents those patients classified under MS-DRG 775.

Minority Health Addendum, Item 3: Northside does not have information on the number of physicians, nurses, and other staff who speak the languages listed.
