Georgia Minority Health Advisory Council Addendum

Because of Georgia's racial and ethnic diversity, and a dramatic increase in segments of the population with Limited English Proficiency, the Georgia Minority Health Advisory Council is working with the Department of Community Health to assess our health systems' ability to provide Culturally and Linguistically Appropriate Services (CLAS) to all segments of our population. We appreciate your willingness to provide information on the following questions:

1. Do you have paid medical interpreters on staff? (Check the box, if yes.)

If you checked yes, how many? 0 (FTE's)

What languages do they interpret?

No interpreters on staff.

2. When a paid medical interpreter is not available for a limited-English proficiency patient, what alternative mechanisms do you use to assure the provision of Linguistically Appropriate Services? (Check all that apply)

Bilingual Hospital Staff Member

Bilingual Member of Patient's Family

Community Volunteer Interpreter

Telephone Interpreter Service

Refer Patient to Outside Agency

Other (please describe):

The SpectraCorp language line is accessed by staff members when they cannot communicate with a patient who does not speak English. Bilingual hospital staff members are also used.

3. Please complete the following grid to show the proportion of patients you serve who prefer speaking various languages (name the 3 most common non-English languages spoken.)

Top 3 most common non-English languages spoken by your patients	Percent of patients for whom this is their preferred language	# of physicians on staff who speak this language	# of nurses on staff who speak this language	# of other employed staff who speak this language
Spanish		0	0	0
Vietnamese		0	0	0
Laotian		0	0	0

4. What **training** have you provided to your staff to assure cultural competency and the provision of **Culturally and Linguistically Appropriate Services (CLAS)** to your patients?

We have the patient education system (TIGR). This has learning videos for patients in English and Spanish. The patients can dial into this system and have it played on the TV in their room. Nurses can dial in for a patient to learn topics such as diabetes self injection or breast feeding - over 800 topics. These videos are updated periodically to ensure the content is current.

- The SpectraCorp language line is accessed by staff members when they cannot communicate with a patient who does not speak English.

- Most of our patient information that is given to a patient is set for about a 6th grade or lower level. Also, in the Nursing Orientation class, we do have a literacy video that is presented which addresses patient needs related to literacy.

- Note for 3. We are not currently tracking languages for staff or nurses. We are also not tracking the languages spoken by physicians for CY 2013.

-

5. What is the most urgent tool or resource you need in order to increase your ability to provide **Culturally and Linguistically Appropriate Services (CLAS) to your patients?**

The most urgent need is to keep up-to-date all courses currently offered and to evaluate new courses to add to the TIGR Patient Education System.

-

6. In what languages are the signs written that direct patients within your facility?

1. English

2. Spanish

3.

4.

7. If an uninsured patient visits your emergency department, is there a community health center, federally-qualified health center, free clinic, or other reduced-fee safety net clinic nearby to which you could refer that patient in order to provide him or her an affordable primary care medical home regardless of ability to pay? (Check the box, if yes)

If you checked yes, what is the name and location of that health care center or clinic?

Southside Medical Center
275 Upper Riverdale Rd
Suite D
Riverdale, GA 30274
