Georgia Minority Health Advisory Council Addendum

Because of Georgia's racial and ethnic diversity, and a dramatic increase in segments of the population with Limited English Proficiency, the Georgia Minority Health Advisory Council is working with the Department of Community Health to assess our health systems' ability to provide Culturally and Linguistically Appropriate Services (CLAS) to all segments of our population. We appreciate your willingness to provide information on the following questions:

1. Do you have paid medical interpreters on staff? (Check the box, if yes.)

If you checked yes, how many? 9.1999998092651 (FTE's)

What languages do they interpret?

Spanish

2. When a paid medical interpreter is not available for a limited-English proficiency patient, what alternative mechanisms do you use to assure the provision of Linguistically Appropriate Services? (Check all that apply)

Bilingual Hospital Staff Member

Bilingual Member of Patient's Family

Community Volunteer Interpreter

Telephone Interpreter Service

Refer Patient to Outside Agency

Other (please describe):

Video (lang & ASL)

3. Please complete the following grid to show the proportion of patients you serve who prefer speaking various languages (name the 3 most common non-English languages spoken.)

Top 3 most common non-English languages spoken by your patients	Percent of patients for whom this is their preferred language	# of physicians on staff who speak this language	# of nurses on staff who speak this language	# of other employed staff who speak this language
0	0	0	0	0
0	0	0	0	0
0	0	0	0	0

4. What **training** have you provided to your staff to assure cultural competency and the provision of **Culturally and Linguistically Appropriate Services (CLAS)** to your patients?

Classes on cultural competency awareness are provided for existing staff. Several staff members

have been identified and trained as certified interpreters. Each year, during the annual mandatory education, an employee's cultural awareness is discussed including the usage of interpreters and their importance in communicating with non-English speaking patients.

In general orientation our new staff are trained about the Interpreter Program. Discussion involves how to access interpreters and usage of the language line for various types of languages. New staff receive information that incorporates cultural awareness in communicating and providing care to patients and their families.

The organization offers Interpreter skills training classes which include medical terminology.

-

5. What is the most urgent tool or resource you need in order to increase your ability to provide **Culturally and Linguistically Appropriate Services (CLAS) to your patients?**

None needed. We offer a web page for LEP patient needs, badges to identify all assessed interpreters, wireless interpreting device for LEP and hearing impaired patients, as well as telephonic interpreting line and document translation program.

6. In what languages are the signs written that direct patients within your facility?

1. English

2. Visual Wayfinding

3.

4.

7. If an uninsured patient visits your emergency department, is there a community health center, federally-qualified health center, free clinic, or other reduced-fee safety net clinic nearby to which you could refer that patient in order to provide him or her an affordable primary care medical home regardless of ability to pay? (Check the box, if yes)

If you checked yes, what is the name and location of that health care center or clinic?

Hall County Health Department, Good News at Noon, Health Access Initiative

Comments:

The data presented in the AHQ and related addendum reflects the beds and services of both NGMC's Main Campus and Lanier Park Campus, which are licensed and operated as a single hospital.

D.1. Set up and Staffed bed totals are less than NGMC's approved complement of 557, the number of beds combined on the Main Campus and Lanier Park Campus.

D.1.a -Inpatient and discharge days include inpatient LDR and C-section room days; LDRs are not acute care beds.

D.1.a –Gynecology (not OB) beds are reported as part of the Medical/Surgical beds.

D.2 - The multi-racial category includes patients who declined to indicate their race and were included in an "other" category on the hospital's records. The same is true for payor breakdowns in the Psych, Surgical and Perinatal Addendums.

D.4. Most Peachcare admissions and patient days are now included in the Medicaid category because the payment source for both classes of patients are the Medicaid CMOs.

E.4. Note 1: NGMC is not able to track visits by type of ED bed.

Note 2: The ER beds for psych/substance abuse cases include 4 emergency beds housed in the Laurelwood building.

E.5. The majority of transfers were to SNFs and other non-general acute care hospitals.

F.1b.Reported PET procedures include both PET scans and other corresponding non-scan PET procedures.

G.3. Physician Race information is not captured during the medical staff application process.

G.4.Note 1: NGMC physicians do not report Medicaid/PeachCare/PEHB plan provider status to the hospital. NGMC has attempted to gather data regarding physician enrollment in those programs, but recognizes that its data are likely incomplete. NGMC also recognizes that it is very likely that a greater number of its medical staff are enrolled providers in those programs than reflected in the data reported here.

Surgical Services Addendum - in addition, Northeast Georgia Medical Center has 4 dedicated endoscopy suites adjacent to the main campus OR suite. Those suites and their related volumes are not reported in the surgical services addendum.

Perinatal Services Addendum - Specialty Care admissions include admissions from sub-specialty care unit.

Minority Health Addendum - Part 3. NGMC does not have reliable data to report.

Minority Health Addendum - Part 6. Signage on the hospital campus utilizes universal symbols and numbers to direct non-English speaking patients to the appropriate locations. Signs are marked with braille lettering to assist the sight-impaired in locating their intended destination.
