Because of Georgia's racial and ethnic diversity, and a dramatic increase in segments of the population with Limited English Proficiency, the Georgia Minority Health Advisory Council is working with the Department of Community Health to assess our health systems' ability to provide Culturally and Linguistically Appropriate Services (CLAS) to all segments of our population. We appreciate your willingness to provide information on the following questions:

1. Do you have paid medical interpreters on staff? (Check the box, if yes.)

If you checked yes, how many? 0 (FTE's)

What languages do they interpret?

This service can be found by going to the intranet, click on the quick links and following the instructions listed. This line can be used for any language that is non-English speaking. In our Clinical Orientation class, we also teach how to get to this function as well as discuss a literacy video that addresses patient needs related to literacy. All information provided to patients is set for a 6th grade level or lower.

3. Please complete the following grid to show the proportion of patients you serve who prefer speaking various languages (name the 3 most common non-English languages spoken.)

Top 3 most common non-English languages spoken by your patients	Percent of patients for whom this is their preferred language	# of physicians on staff who speak this language	# of nurses on staff who speak this language	# of other employed staff who speak this language
Spanish	3.26%	0	0	0

Laotia	.23%	0	0	0

We use the TIGT education system which has learning videos for patient and families in both English and Spanish. The patient or family member can dial into the system themselves or this can be done by the nurse wanting to teach a certain topic. There are a variety of videos listed to cover all areas such and maternal child, Diabetes, wound care, self-injections, etc. We review the need for subjects on a yearly basis and the change for additional topics is made based on that need. The TIGR System and the language line are both taught in clinical orientation.

5. What is the most urgent tool or resource you need in order to increase your ability to provide **Culturally and Linguistically Appropriate Services (CLAS)** to your patients?

A class on cultural diversity. Updated videos on Literay and the most current information on cultural diversity with possibly pocket cards to give out to staff as a reference.

6. In what languages are the signs written that direct patients within your facility?
