Georgia Minority Health Advisory Council Addendum

Because of Georgia's racial and ethnic diversity, and a dramatic increase in segments of the population with Limited English Proficiency, the Georgia Minority Health Advisory Council is working with the Department of Community Health to assess our health systems' ability to provide Culturally and Linguistically Appropriate Services (CLAS) to all segments of our population. We appreciate your willingness to provide information on the following questions:

1. Do you have paid medical interpreters on staff? *(Check the box, if yes.)* ☐
If you checked yes, how many? 0 (FTE's)
What languages do they interpret?

2. When a paid medical interpreter is not available for a limited-English proficiency patient, what alternative mechanisms do you use to assure the provision of Linguistically Appropriate Services? *(Check all that apply)*

Bilingual Hospital Staff Member ☐	Bilingual Member of Patient's Family ☐
Community Volunteer Intrepreter ☐	Telephone Interpreter Service ☑
Refer Patient to Outside Agency ☐	Other (please describe): ☐

Language Services Associates Laptop computer for sign language patients; TTY machine also available

3. Please complete the following grid to show the proportion of patients you serve who prefer speaking various languages (name the 3 most common non-English languages spoken.)

Top 3 most common non-English languages spoken by your patients	Percent of patients for whom this is their preferred language	# of physicians on staff who speak this language	# of nurses on staff who speak this language	# of other employed staff who speak this language
Other	11.2	0	0	0
Spanish	0.4	0	0	0
French	0.25	0	0	0

4. What **training** have you provided to your staff to assure cultural competency and the provision of **Culturally and Linguistically Appropriate Services (CLAS)** to your patients?

Instructions are provided to all system employees on how to contact and use the language services

provided. Health-Streams II education is also provided to all staff annually on culturally and diverse populations. Health-streams(contracted education on line) is provided throughout the system of hospitals (Brooks County Hospital,Grady General Hospital, John D. Archbold Medical Center, and Mitchell County Hospital). Annual updates are based on changing needs and is provided to staff on culturally and diverse populations that they may encounter. Lodge-Net soft-wear education is provided to all employees on topics that are job specific but a library of hospital specific topics for continued education. At the time of discharge Exit-care soft-wear provides the nursing staff with the ability to print
off discharge specific information and instructions for patients. The exit-care soft wear can be printed in both English and Spanish.

5. What is the most urgent tool or resource you need in order to increase your ability to provide **Culturally and Linguistically Appropriate Services (CLAS)** to your patients?

Software has been acquired for educating the patient in English and Spanish. We continually train staff on how to use the program and monitor how often it is being used by our patients. Needs of other language populations we serve will be
evaluated and suggestions made by leadership on ways to provide the same level of service to all. International icons such as Mens & Womens bathroom are used throughout our system. There are no campus maps in English or Spanish that can be provided in hard copy or on the web for patients/visitors. Directional
signage is in English; if a patient/visitor was to enter on the East, West or South and did not speak English there could be a barrier. The most urgent tool needed is a softwear link that allows direct access for our staff at any location to immediately obtain a professional healthcare interpreter. This immediate access
would limit errors and lessen LOS for the non-English speaking patient.

6. In what languages are the signs written that direct patients within your facility?

1. English
2. Braille
3.
4.

7. If an uninsured patient visits your emergency department, is there a community health center, federally-qualified health center, free clinic, or other reduced-fee safety net clinic nearby to which you could refer that patient in order to provide him or her an affordable primary care medical home regardless of ability to pay? *(Check the box, if yes)* ☑
If you checked yes, what is the name and location of that health care center or clinic?

Thomas County Health Department: 484 Smith Avenue Thomasville, GA 31792
Primary Care of Southwest Georgia : 440 Smith Avenue Thomasville, GA
Southwest Georgia Public Health District 8-2 is made up of Baker, Calhoun, Colquitt, Decatur, Dougherty, Early,Grady, Lee, Miller, Mitchell, Seminole, Terrell, Thomas and Worth counties. All of these counties are serviced by a public health department.
