Georgia Minority Health Advisory Council Addendum

Because of Georgia's racial and ethnic diversity, and a dramatic increase in segments of the population with Limited English Proficiency, the Georgia Minority Health Advisory Council is working with the Department of Community Health to assess our health systems' ability to provide Culturally and Linguistically Appropriate Services (CLAS) to all segments of our population. We appreciate your willingness to provide information on the following questions:

1. Do you have paid medical interpreters on staff? (Check the box, if yes.)

If you checked yes, how many? 0 (FTE's)

What languages do they interpret?

2. When a paid medical interpreter is not available for a limited-English proficiency patient, what alternative mechanisms do you use to assure the provision of Linguistically Appropriate Services? (Check all that apply)

Bilingual Hospital Staff Member

Bilingual Member of Patient's Family

Community Volunteer Interpreter

Telephone Interpreter Service

Refer Patient to Outside Agency

Other (please describe):

Laptop Sign Language Service; Consent and Hospital Forms Printed in top 10 Languages of Georgia

3. Please complete the following grid to show the proportion of patients you serve who prefer speaking various languages (name the 3 most common non-English languages spoken.)

Top 3 most common non-English languages spoken by your patients	Percent of patients for whom this is their preferred language	# of physicians on staff who speak this language	# of nurses on staff who speak this language	# of other employed staff who speak this language
Spanish	1.86	0	0	0
Korean	.01	0	0	0
		0	0	0

4. What **training** have you provided to your staff to assure cultural competency and the provision of **Culturally and Linguistically Appropriate Services (CLAS)** to your patients?

Healthstream contracted education is provided to employees and staff throughout our system

hospitals, Long Term Care Facilities, Ambulatory Care Centers, and Archbold Medical Group Facilities. Annual educational updates are provided for staff and are based on our patient populations changing needs and are about culturally and diverse patient's employees may encounter. Lodgenet has been added to the nursing component for individually assigning patient education on diagnostic education needs, advance directives, and other patient needs. Exitcare soft wear has been added to allow our nurses to print discharge instructions and diagnostic information about the patient's illness for them to take home concerning their care and special needs in the language of their choice.

5. What is the most urgent tool or resource you need in order to increase your ability to provide **Culturally and Linguistically Appropriate Services (CLAS)** to your patients?

We provide the internationally known icons for Men's and Women's bathrooms throughout the system. Maps for our campus are provided in English only and are in lobby areas of the main hospital and facility offices or can be printed off our website at archbold.org. Directional signage is in English and Brail; if a patient/visitor was to enter our campus and did not speak English there could be a barrier.

6. In what languages are the signs written that direct patients within your facility?

1. English 2. Spanish (pt. rights only) 3. Universal Icons 4.

7. If an uninsured patient visits your emergency department, is there a community health center, federally-qualified health center, free clinic, or other reduced-fee safety net clinic nearby to which you could refer that patient in order to provide him or her an affordable primary care medical home regardless of ability to pay? (Check the box, if yes)

If you checked yes, what is the name and location of that health care center or clinic?

John D. Archbold Memorial Hospital Emergency Department services Thomas County and surrounding Counties and we are able to refer patients to the Thomas County Health Department.

We also have three system hospitals Brooks County Hospital is able to refer patients to the Brooks County Health Department, Grady General Hospital refers patient's to Grady County Health Department and Mitchell County Hospital refers patient's to Mitchell County Health Department.

All of the hospitals offer patients an indigent care program and offers patients free health care if they qualify and submit the proper paperwork. All emergency department patients and hospital patients are given a list of community resources for free and discounted health care resources at the time of discharge.
