Comments:

Part F: Subtracted bad debt and gross charity charges from third party net to make numbers match. In our financials these two expenses are below net revenue. Part D: Male and female patients and procedures numbers were increased by representative % on our "male and female procedures and patients report to match actual total. Part F: Patients by Payer Source was increased increased in "other" because breakdown report did not match actual. Part I: "Other-Out of State" increased by 141 to match actual total (the 141 represents patients from an unknown county)
