Comments:

Part C, Question 4: 6 patients did not provide ethnicity information. These patients are added to the most common ethnicity (white) in the survey. Part D, Questions 3-5: Charges, reimbursement, uncompensated charges and adjusted gross revenue for those patients who had both Open Heart and Cardiac Catheterization services are allocated by applying the proportion of open heart-to-combined cardiac cath/open heart charges against total charges. Note: questions D-4 and D-5 on the survey request information for Cardiac Catheterization services, most likely by error. In their place we provided Open Heart Surgery information.
